

**Título:** Brain@Work - Information competence as booster for prospective scientists (Brain@Work)

**Código:** 2019-1-IT02-KA203-062829

**Objetivo principal:**

The project general aim is to deepen knowledge about existing IL training embedded in university courses in technical and scientific European faculties and, through the collaboration among international partners, to upgrade the training offer of the participant organization.

**Instituição coordenadora:** Consiglio Nazionale delle Ricerche (CNR)

**Data de aprovação:** 20/11/2019

**Data de início:** 01/11/2019

**Data de fim:** 31/03/2022

**Custo total elegível:** 47 955,00 €

**Entidade financiadora:** Comissão Europeia|European Commission

**Prog. quadro:** Erasmus+

**Prog. operacional:** KA203 - Strategic Partnerships for Higher Education Mobility Projects

**Investigador responsável:** José Dinis Araújo Carvalho

**Unidade de Investigação:** Centro Algoritmi

**Objetivos, atividades e resultados esperados/atingidos:**

This project will exploit the Information Literacy (IL) in Europe and develop a program to improve that IL among professionals and researchers. Some expected results are: more effective, appealing and fast learning training modules; IL embedded in scientific and technical courses; deeper knowledge of IL training methods; extended European network of universities and research institutions interested in IL applied to scientific and technical studies.
